

# Cochlear Implant Quality of Life Study

Researchers in the Department of Otolaryngology-Head and Neck Surgery at the Medical University of South Carolina are developing a quality of life survey for adults with cochlear implants. The goal of this study is to better understand how cochlear implants impact an individual's life.

If you agree to participate, you will complete a confidential, online survey that takes approximately 15 minutes. For completing this survey, you will receive a \$5 gift card.

To qualify, you must be:

- a cochlear implant user for at least one year
- 18-89 years old

This is a research study at the Medical University of South Carolina. If you are interested in participating or would like additional information, please send an e-mail to the lead investigator or study coordinator at [Clqualityoflife@musc.edu](mailto:Clqualityoflife@musc.edu)

Thank you!
