

Cochlear Implant Study: **Personalized Mapping & Music Perception**

You may volunteer if:

- ✓ You are an adult with a **MED-EL cochlear implant**

What is involved?

- ✓ 3 visits total to UCSF Parnassus, each lasting 1-6 hours
- ✓ 1st visit will be for a CT scan; 2nd and 3rd visits for personalized mapping and testing with the new maps
- ✓ Complete a variety of speech and music-related listening activities in a sound booth.
- ✓ Use the new personalized mapping for 1-2 months

Benefits:

- ✓ You will be paid \$15/hour for your participation while at UCSF
- ✓ Parking expenses will be covered, if applicable
- ✓ You will be helping research about music perception in cochlear implants, which could benefit many people in the future
